TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frameworks & Libraries:** Next.js, React.js, Node.js, Express.js
- **Databases & State Management:** MongoDB, TanStack Query, React Hook Form
- **Tools & Platforms:** Git, GitHub, Tailwind CSS, JWT Authentication, Vercel, Firebase

TECHNICAL PROJECTS

ClubSphere – Full-Stack MERN Club Management Platform | [Live Demo](#) | [GitHub](#)

- Developed a complete full-stack web application for discovering, joining, and managing local organization clubs.
- Implemented multi-tier role routing (Member, Club Manager, Admin) protected by **JWT Authentication**.
- Optimized server state synchronization and client-side caching utilizing **TanStack Query**, reducing redundant API calls.
- Managed seamless form validations, states, and submission handling using **React Hook Form**.

Care.xyz – On-Demand Home Care Services Platform | [Live Demo](#) | [GitHub](#)

- Engineered a highly responsive home care booking solution targeting users across Dhaka and Chattogram.
- Architected the codebase using the modern **Next.js App Router** structure for improved routing efficiency and SEO optimization.
- Built dynamic, structured data schemas in **MongoDB** to handle customized service selections, time slot schedulers, and client bookings.

EDUCATION

Higher Secondary School Certificate (HSC)

Netrakona Govt. College | *Graduation Year: 2022*
